## COMPANY NEWS ...

For over 40 years, **WHALLON** has been well known in the food processing industry by providing quality palletizing and depalletizing equipment. You can also find **WHALLON** machines operating in industries that handle paint, beverage cans, glass bottles, carpet adhesives, infant formula, cleaning wipes, wine, filters, light bulbs, cookies, crackers, resin, trailer panels, and cement pavers.

With a creative engineering department and builders with years of experience, we work with customers to evaluate their special needs, listen to their ideas and create a custom machine for their custom process. From canning beer in a microbrewery to picking up 3' x 9' panels in a trailer manufacturer, **WHALLON** is moving forward to design and build machines for your special production application. Contact us to discuss a situation or process in your plant that can be made more efficient with a **WHALLON** machine.

## SALES NEWS ...

### NORTHEAST U.S. & CANADA

Roger Hamilton, owner of Focus Packaging Group, has joined the **WHALLON** sales team. With over 24 years of material handling experience, Roger has completed numerous conventional and robotic projects as well as integrating conveyor systems. Roger will be taking care of existing customers and establishing new accounts in the Northeast U.S and Canada. Contact Roger by email at [rh@focuspkg.com](mailto:rh@focuspkg.com) or by cell phone at #519-209-1520.

### MIDWEST

Scott Vollmer joined the **WHALLON** sales team July 15<sup>th</sup> of this year and is responsible for the Midwest region. Scott has a 17 year background with custom built production machinery and has worked with customers throughout the U.S. and internationally. Scott looks forward to meeting existing customers and establishing new accounts. Contact Scott by email at [svollmer@whallon.com](mailto:svollmer@whallon.com), office #574-643-9561, or by cell phone at #219-863-2609.

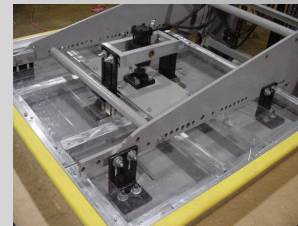

## DESIGN News ...

**WHALLON MACHINERY** is pleased to announce a partnership with Dave Christensen of Simplified Technology. This partnership will allow **WHALLON** to offer customers the enhanced rare earth magnetic head design developed by Simplified Technology. Features of this design include stronger magnets, heavy 11 gauge pan, and clean design.

**Very attractive pricing with volume discounts available.**

## PARTS & SERVICE ...

**WHALLON** has replaced the Oildyne/Parker pressure switch with a Nason brand. The new switch has a longer life expectancy, is field adjustable, and easily customized to meet the needs of our equipment. For more information or a quote on the Nason switch, contact Parts Manager Tim Minnick 574-643-9561 or [tminnick@whallon.com](mailto:tminnick@whallon.com).

With seasonal packs wrapping up and year end budgets being submitted, consider a machine audit by **WHALLON** service department. Our trained technicians can review your machine and make recommendations to update or get your machine production ready for the upcoming year. Contact Service Manager, Andy Keiser, at 574-643-9561 or [akeiser@whallon.com](mailto:akeiser@whallon.com) to receive a quote for an audit or recommend upgrades to make your machine run more efficient..

## MACHINERY NEWS ...
